

# Keep our community safe.

We are now living in the new normal,  
and we need you to play your part.

## What can you do?

- Ensure you keep a minimum space of 1.5 metres between you and other people who aren't known to you.
- If you need to be facing a person, not known to you and closer than 1.5 metres, minimise contact to less than 15 minutes.
- Wash your hands with soap and water for 20 seconds or use hand sanitiser before and after any contact with surfaces.
- If you are not well, stay home.
- Download the COVIDSafe app for the fastest way to assist in contact tracing.
- Avoid sharing food, drinks, cups, utensils and cigarettes.

Take responsibility and let's work together  
to keep the community safe.
